- 2. As a result of the Commission's work, there are no longer any basic differences between the Wismut wage-levels catalogue and that of the Ministry for Heavy Industry. A number of features in the Wismut catalogue which had originally differed were reworked er expanded. In cases where deviations in the level of the wage groups were discovered, the qualification criteria (Qualifikationsmerkmale) in the Wismut catalogue were expanded, with allewance made for the production conditions which exist in Wismut enterprises.
- 3. The Contral Commission for the Introduction of the Wage-Levels Catalogue met on 3 March 1955 and approved the work of the coordinating commission. It was decided that a meeting would be held in Karl-Marx-Stadt on 14 March 1955 to discuss the preparatory work for introducing the revised catalogue. Terentyev (fnu) was proposed as the technical and political advisor to an additional small sometites which would undertake a study of past experiences in such matters and point out ways of avoiding mistakes. Composing the Central Commission for the Introduction of the Wage-Levels Catalogue were:

Minister Frits Macher

Ministry for Labor and Professional Training
(Arbeit und Berufsausbildung)

Deputy Minister Walter Heinicke Ministry for Labor and Professional Training
